

## LEGION WILL ASK FOR HELPERS IN G. A. R. CAMPAIGN

Various Organizations Will be Invited to Help Raise Monument Fund

Every civic and fraternal organization in Appleton will be asked by Onee Johnston post of the American Legion to assist in raising the fund which will be used to purchase a monument for the Grand Army of the Republic burial plot at Riverside cemetery. Preliminary plans for obtaining approximately \$2,000 were made by the executive committee of the legion at a dinner at Conway hotel Tuesday evening.

The committee decided also to invite the Women's Legion auxiliary and mothers or wives of veterans to the next legion meeting on Monday evening March 10. This will be one week later than the usual date because the hall will not be available until March 3. The show talent play will be staged this spring and that plans are under way for the appearance of a high class opera company here next fall.

**DEFER APPOINTMENT**  
Appointment of an adjutant to succeed Alfred C. Besser, who is a candidate for city attorney and therefore not eligible to office in the legion, was deferred until the next meeting of the committee.

Onee Johnston post voted at its February meeting to sponsor a movement to obtain the monument which the Civil war veterans have had a desire to purchase. The legion officers decided to arrange the campaign in such a way that there would be many centers each contributing a nominal amount. School children will be given the privilege of helping.

**CALL MEETING SOON**  
Commander L. Hugo Keller was instructed to call a meeting soon at which representatives of the legion and each civic and fraternal organization will be present. This body will discuss the plan of campaign and reach a decision as to the best way to raise the money. A general chairman will be chosen by this group to supervise the solicitation. It is expected that this plan will make the monument a gift from the entire city, as the donations will come from all the people.

Drawings prepared by the G. A. R. sometime ago for the kind of memorial shaft they would like will be submitted together with estimates of cost. Onee Johnston post is a second lieutenant in the Fifteenth Queens battalion of the Canadian army was a guest of the committee at the dinner.

## Flashes Out Of The Air

Tonight listeners-in will be able to sit in their own homes and hear one of the musical shows "Up She Goes" which will be broadcast by WHAM at Rochester and "The Sunshine Girl" by WCAE at Pittsburgh. If one prefers a bit of travel an interesting talk will be given on Bermuda from WOR and one on "The Port of Haver" from KDKA. This is also the night when the story lady, Miss Georgene Faulkner, entertains children over WMAQ.

## WANT VALLEY CLUB OF CITY ENGINEERS

Concrete is Favored as Paving Material at Meeting in Milwaukee

Discussion of the advisability of organizing a Fox River valley association of city engineers was revived at the state meeting of engineers at Madison last week. The meeting was attended by R. M. Connelly, city engineer. The movement to form a district organization was started a year ago when O. F. Weissgerber was engineer in Appleton.

The state convention was a gathering of city engineers, construction, hydraulic, sanitation and drainage engineers. A part of the sessions was devoted to discussion of concrete pavements. It was conceded that concrete is the most practicable as well as the most durable type of street pavement. An engineer from Chicago talked on the dispute over the lowering of the level of Lake Michigan as a result of the Chicago drainage canal. He contended that the lake level is actually higher now than it was before the canal was constructed.

The February thaw has done much to lower the obnoxious snow banks on country roads, and farmers are assisting in the road improvement by means of the disc harrow. A good many miles of road in this community have been covered over with the disc harrow during the last few days. It is regarded as the best method of breaking up the snow. It not only packs the snow, but breaks up the ice, lowers the track and allows the sun's rays to penetrate the road. Tuesday J. W. Bauman and J. Walheim opened a road west of Mackville six miles of road on the county line of Outagamie and Winnebago and in Greenville were opened up Tuesday by Clinton Curtis, Albert Borchert and Frank Tellock. Similar work was done by Fred Plamann of Center, Ed Dietz of Ellington, and Fred Jentz of Center.

PRESIDENT CLUB  
TO BE FORMED AT  
MEETING MARCH 7

City Can Enter State Contest  
if Heads of Organizations  
Unite

Friday, March 7, is the date set by the community welfare committee of the chamber of commerce for meeting of heads of various Appleton civic or social service organizations to form a "presidents club." A body of this kind is needed if Appleton is to enter the better cities contest for the \$1,000 prize offered by Wisconsin Conference of Social Work.

A list of organizations that should be represented is being compiled and the announcements then will go out. Louis Bonini, chairman of the committee, invites suggestions as to the civic bodies that should be included. The state contest calls for participation along numerous lines of municipal endeavor, including health, recreation, education, sanitation, industrial environment and other features. The city that does the most to make itself a better place to live will be given the prize.

Combined judgment of those directing community affairs here is needed, as well as cooperation and avoidance of duplication. A presidents club such as is functioning successfully in other cities will be attempted. It will include the mayor, heads of various municipal boards, heads of school boards, the chamber of commerce president or secretary, Appleton Woman's club president, general secretary of the Y. M. C. A., pastor of churches, Lawrence college representatives and others.

SCREEN

SAVAGE WOMAN IN PARISIAN  
HIGH LIFE

Clara Kimball Young will appear at the New Bijou Theatre today and Thursday in "The Savage Woman," from Francois Curel's "La Femme Sauvage," adapted for the screen by Kathryn Stuart. It is a role entirely different from any other which Miss Young has before chosen for the screen. She takes this celebrated star away from her usual society play and shows her to exceptional advantage as Renee, daughter of a French trader, derelict in Abyssinia.

When her father leaps to his death the girl wanders away and finds herself in the ruins of an old palace once belonging to the Queen of Sheba. Here she is mistaken for the reincarnated queen herself, and desired by the native prince as his bride. She is frightened, and blinds him with the flashes from her mirror while she makes her escape. Fleeing once more, she is shot by a French explorer, Lerier, who binds up the slight wound and struck with her dusky beauty, takes her back to France.

Here Renee is happy until she learns two unthought of things—jealousy, and the fact that a marriage ceremony is desirable. Almeda Ducharme, a former mistress, is winning Lerier back for he has missed her brilliant conversation, and her jealousy aroused, Renee destroys a precious relic which Almeda has brought to Lerier from Cyprus. Then overcome with remorse, she decides to go back to Abyssinia where many such stones can be found, to replace it.

Lerier discovers that he loves Renee when it is too late, and thinking her dead, is drawn back to their old haunts. He is captured by the native prince and is about to be sacrificed when Renee appears on the scene and saves him.

Manual Training Boys Do  
Repair Work At School

If you think for one minute that all high school boys can do when they have completed the course of manual training is to make footstools, candlesticks and other simple pieces of woodwork you are mistaken, for what these boys can do even after a short period of training would surprise most people. Most taxpayers will be interested to know that much of the repair work in the school is done by manual training pupils. This does not mean that the department can send boys to fix everything, because some jobs require the services of experts, but common repairs that would be quite expensive if a carpenter's services were required are done by the boys.

These included repairing benches, regulating chairs, fixing gym equipment, building bulletin boards, making small wooden equipment for the laboratories and building tables and equipment for the shops. Some of the repair work requires the time of the instructors, such as the repair of locks on laboratory cases, lost key trouble and intricate jobs that need more than a youngster's attention.

Boys rapidly become expert in their work. Some of the most difficult jobs such as putting tools into machines are performed by the boys. It takes considerable skill to set the tools so they will cut evenly, but one boy put a set of knives in a jointer, a job that usually is performed by an expert. These knives are on an iron cylinder, one on each side. They revolve to cut, and unless the knives are exactly even, they will cut away with a wavy appearance.

There are little novelties that the boys make in spare time or in school hours that are quite out of the ordinary. One boy is making a tray that has inlay work so delicately colored and exquisitely done that it looks as though the design were painted on. Others make bookends, candlesticks, sewing tables and many other things that require much labor and skill.

The consensus of opinion among the film producers is that the American audience prefers first of all good clean comedy. Its second choice is the mystery drama. In "Red Lights," which is coming to the Elito Theatre on Thursday for 3 days, the mysterious complications keep a tense interest throughout, and hold the audience in a state of suspense until the very last scene. During the production of the stage play members of the audience shrieked and gasped at the thrilling situations. The screen version, "Red Lights," promises to present much more of a thrill as the different scenes can be made more realistic than they could possibly have been on the stage.

The greater part of the action transpires in the rear car of the Continental Limited.

Duroc-Jersey Breeders Hold  
Public Auction at Jennings  
Garage

New London — Preparations are completed for the pure bred consignment sale of the Outagamie County Duroc-Jersey Breeders' Association to be held in New London on Thursday, in Jennings' garage. J. Denhardt, Neenah, will be the auctioneer, A. W. Cuff, Hortonville, sales manager and P. J. Blanshan, Seymour, secretary.

The consignors are Fred and Albert Krahn, Seymour, Fred Roepeko, Seymour; V. F. Julius, Greenville; R. W. Winter, Greenville; C. H. Cuff, Hortonville; Herman and Henry Stichman, New London; F. J. Rueping, Fond du Lac. The association expects to dispose of 40 sows.

Cudahy Brothers report that for the month of July, 1923, 25 per cent of the hogs marketed were sows carrying litters and in Aug., 15 per cent of the sales were the same condition. These percentages are probably true of all markets for those months and others probably run high for all other markets throughout last year. If such is the case, it means a shortage of hogs in the near future and that the present time is a favorable time for the farmer to prepare to take advantage of that shortage.

Along that line, it may also be said that 32,000 sows were shipped from Wisconsin into Illinois, Iowa, Nebraska, and Indiana, the leading hog-raising states and that these heavy shipments of dairy sows means that farmers of those states are abandoning hog raising and going into dairying.

This movement, if it is real, means nothing but a shortage of hogs in the near future and a consequent advance in the market price of hogs.

## MACDONALD AND THE STRIKES

When the MacDonald government came into power it was immediately beset by two severe tests. Almost on the day the prime minister took office a great railroad strike was called, and shortly after an even more menacing labor controversy arose when the dockmen went out. The government set to work industriously to compose the railroad strike, and within a few days it was settled. While it was not settled solely at the instance of the government, there is no doubt that the throwing of its moral support on the side of the forces which had discredited the strike and which sought a conservative settlement had a great deal to do with the outcome.

No sooner was this strife ironed out, then British shipping and commerce were seriously jeopardized by the dock strike. Food prices commenced to soar and there was every prospect of serious disturbances. The men asked for an increase in pay and protection against casual employment. It was a situation very much like that entering into the bituminous coal industry in the United States, in that there are more dockmen than employment. They are well paid, as British labor is paid, and what they demand in effect is a wage that will cover both idleness and work. They are to receive an advance and an effort is to be made to "de-casualize" their employment.

The terms of settlement, however, are only of small interest in the United States. They doubtless are of less interest in Great Britain than the fact that a settlement has been made. The credit for the peaceful adjustment of both the rail and dock strike is freely given to the MacDonald government, and particularly to the ministry of labor. On the surface it seems that the MacDonald government has put it all over previous governments in the accommodation of labor disputes. Our presidents do not seem to do so well even in this country in the composition of big strikes. It seems, therefore, that Mr. MacDonald has performed a real achievement, and that he has gone a long way at the outset toward inspiring public confidence in him and his government. Signs continue to multiply that Great Britain is profiting, or stands to profit, more from the labor ministry than even the most liberal-minded expected.

## THE DAWES COMMITTEE

If the advance reports on the work of the Dawes committee are correct, France has no reason to be apprehensive over its findings. Correspondents in close touch with the committee say it has reached a conclusion as to Germany's capacity to pay reparations that coincides with the French view. It is reported, for instance, that the committee finds that as soon as her finances have been reestablished Germany should have, at the end of two or three years' moratorium, a surplus of at least 4,500,000,000 gold marks (\$1,125,000,000) annually to apply on reparations. For some time now France has placed her indemnity at 26,000,000,000 gold marks, plus what she would have to pay England and the United States. On this basis, figuring British claims at the amount England is indebted to America, about 14,000,000,000 gold marks, this would place the total reparations, provided

ed America insisted upon full payment, at approximately 70,000,000,000 gold marks. It will thus be seen that with a surplus annually of 4,500,000,000 gold marks to apply on the reparations account, which doubtless would be increased in a few years with a recovery of industry and commerce, Germany is amply able to meet the demands of France.

General Dawes said to a Frenchman the other day, and reiterated the statement when it was made public, that "If the French were not in the Ruhr we experts would not be here." In explaining this statement, he carried this implied approval of the French step still further when he said the occupation had made the Germans realize that they must pay up to their capacity, which it appeared they had not intended to do until the French troops entered the Ruhr. There was also this criticism of French policy, namely, that occupation itself was not producing reparations payment, and it was therefore not successful as a means of actually collecting indemnity. There was comfort in his remarks to both Germany and France, but principally to France. If France has succeeded by the Ruhr occupation in forcing Germany to pay to her capacity, her action is eminently justified, and it looks as though this is to be the outcome.

The difficulty now seems to be to get France to consent to economic withdrawal from Germany on the scale and in the manner the commission is likely to recommend. It is conceded she will retain her military hold to a degree that will satisfy her desires in this respect, but the trouble lies in giving up control over railways and other economic and fiscal agencies. The commission will not be able to dispel French suspicion of German integrity. The French want guarantees that are iron clad, as near as they can be made so, and that do not permit evasions. They are, of course, entitled to this as far as they can get it, so long as it does not defeat German reconstruction and does not throttle Germany's potential capacity to pay. However, if looks as though a satisfactory solution of the whole problem is about to be had, and that whatever obstacles to a settlement France may advance will be cleared away.

## DISCOURAGING GENIUS

For many years the United States has been discouraging invention by refusing the necessary appropriations to reorganize the patent office. This is probably the most expensive economy a nation depending upon new ideas for industrial progress could possibly undertake, and it is good news that reforms are set in motion at last which will handle the 67,000 waiting applications and bring the patent office up to date within two years.

The reward which is a chief inspiration to thousands of inventors is the justice of the seventeen years' private monopoly permitted by the patent laws. Some discoverers like the Cupjes, will work for nothing but the love of alleviating human suffering and increasing human comfort; but this is not true of mechanical inventors in general, who usually possess a perfectly normal and natural selfish urge in addition to altruistic motives. When the nation makes the recording and investigation of inventions offered for patent an easy, prompt and orderly process it increases by so much the incentive to invent.

A chief glory of America has unquestionably been the contribution of its laboratories, from the humble workshops of struggling mechanics like Henry Ford to the great "inventors' rows" in modern factories where research in the aim of improvement goes on night and day. The change in the material appearance and financial condition of the civilized world—its dwellings, its light, its speed of transportation and communication, its greater distribution of wealth, and its consequent increase in tax funds for governmental distribution—is due to the work of inventors.

To begrudge them governmental income for the simple routine of recording and patenting the fruits of their genius is to forget the source of that income.

## Health Talks

BY WILLIAM BRADY, M. D.  
Noted Physician and Author  
Dr. Brady will answer all signed letters pertaining to health. Writers' names are never printed. Only inquiries of general interest are answered in this column, but all letters will be answered by mail if written in ink and a stamped, self-addressed envelope is enclosed. Requests for diagnosis or treatment of individual cases cannot be considered. Address Dr. William Brady, in care of this paper.

### RUMBLES AND GROWLS

Health hath its symptoms too. Take a quick run up two flights of household size stairs and focus your attention on your heart action and you'll find the heart going thump, thump as though bumping the ribs hard, for a little while, if you are sound and well.

Jump suddenly out of bed in the morning and notice that you get just a wee bit dizzy, if you are a healthy customer.

In a gloomy, introspective moment search your field of vision carefully and you'll find divers and sundry spots before your eyes, if there is nothing ailing you.

I am confident, in fact, I could get up a symptom blank, after the fashion of a mail order quack which would work havoc among well folk who might get hold of it. "Have you spot before your eyes?" "Do you feel dizzy at times?" "Does your food disagree?" "Oh, sure, everybody's food disagrees more or less when he gets thinking about it seriously."

Take the rumblings and grumbings that harass some of us from within. These grumbles noises are produced by the peristaltic or wave movements of the intestines acting upon the fluids and gases which are normally present. They're present all the time, nearly, and the noises are nearly always audible with the stethoscope. We don't mean anything. So we doctors call the noises borborygmi.

When a meal has been taken after a period of fasting, the passage of the fluids and gases of the residue of that meal through the valve from the small into the large intestine may be heard about six hours later, if the individual is a healthy specimen.

As a rule there borborygm is no more audible or noticeable to the individual himself or another than are the spots before our eyes noticeable, unless we form the habit of giving them attention. Sometimes the borborygmi become obtrusive when a person is beginning to get very hungry. The obvious remedy in such a case would be a snack between meals, when it is a long time between meals, and the weight is not already excessive. This snack should be something which requires chewing, not a gulp of fluid or candy. I'd suggest some peanuts, an orange or an apple.

In some instances annoying borborygm prove to be due to the habit of air swallowing, a habit unconsciously indulged in by persons fond of having "nervous spells." I say persons fond of having "nervous spells"—that isn't sarcastic, but psychologic. Nervous spells are a kind of funk hole to hide in until the thing you wish to evade or escape is out of your way.

An old favorite, theoretical explanation for these rumblings from within, especially when the noises are associated with flatulence, presence of an excessive amount of gas in the intestines is fermentation. Of course only carbohydrates ferment, and so a great many people attempt to remedy such a condition by actual or just imaginary "dieting" to the extent of restricting or avoiding certain articles which they conceive to be "starchy." This takes us back to the nineteenth century era of dietetics when dieting consisted mainly of funny lists of items in two columns—"may eat" and "may not eat." Here the game is called on account of darkness. We'll finish it some day soon.

### QUESTIONS AND ANSWERS

#### We're All Browns

I am here attending school. My home and birthplace are in Haiti and I call myself a Negro. I am not quite so black as the ace of spades, but I am as nearly black as any Negro I have met. Here folks call me "colored." I think that comes nearer the truth. Having studied anatomy and histology I happen to know that there is no such thing as a black man, that the Negro skin is in all respects the same as the skin of a Caucasian, Asiatic or Malay, except in the relative amount of brown pigment in the pigment layer. Am I right? (P. B. A.)  
Answer.—Yes. All human beings, except albinos, in whom the pigment is congenitally missing, are some shade of brown. So are all eyes.

## LOOKING BACKWARD

### TWENTY-FIVE YEARS AGO

Wednesday, March 1, 1899.

George Cosgrove was seriously ill at his home, 887 Superior-st.

A meeting of the executive committee of the board of trustees of Lawrence college was to be held the following Tuesday evening.

## SEEN, HEARD and IMAGINED

---that's all there is to life

**MY SWEETHEART**  
My sweetheart is from Missouri. And oh, but we two are pals! And just to be with my darling, I'd give all the world of gals.

I've told her I'll never marry— My darling has told me the same— If you'll come with this evening, I'll tell you my darling's name.

My sweetheart is from Missouri. Born where the maize is ripe; Step in and I'll introduce you— My friend—meet my Corn Cob pipe. —Old Timer.

**The Unkindest Cut Was Not the Sur-**

They tell this one about a Manitowish man who went to a hospital for an operation for appendicitis. After the man had come out of the anesthetic, he said to the nurse, "What time is it?" It was morning when I went to the operating table and now it is pitch dark. Have I slept through the whole day? The nurse answered, "No, I pulled the shades down so that you couldn't see the fire across the street, as I was afraid it might make you think the operation was unsuccessful."

**A few Appleton merchants instead of observing the old adage, "Watch Your Step," might adopt the slogan, "Watch Your Checks."**

What we could never understand is that—  
When desire says  
Ham and—  
Finances say  
Coffee and—  
Finances say  
Steak with trimmings  
Appetite says  
Tea and toast? —THE EGG.

Perfumed crayons will soon be the vogue in art and drawing classes, so we are informed. They are already on the local market. We suggest the use of red, or rose perfumed pencils, for lip stick and rouge. Brown and black would be useful for eyebrow pencils.

### CAN'T STICK HIM

A pupil of a certain rural school in Outagamie county knows too much about the mail order business to be trapped by any school teacher. The following verses from "Hawatha" were used in a reading lesson:

"But the wary roebuck started.  
Stamped with all his hoofs together."  
"What word is his to describe 'roebuck'?" the pupil was asked. The answer was "Seers."

**Now we'd like to suggest to Francis Wadford a subject for a portrait: Uncle Sam, done in oil.**

## Oil Prosecutor Never Got Into U. S. Spotlight

Washington, D. C. — Atlee Pomerene, named Teapot Dome prosecutor by President Coolidge, has never found time for anything but work. He looks out on life through serious spectacles. His entire public career has been characterized by ceaseless labor and application to the task in hand. He is a total stranger to recreation in any form.

During his 12 years as United States Senator, Pomerene was seldom in the public eye, yet few Democratic senators were more influential in shaping legislation than the man from Canton, Ohio.

The spotlight passed Pomerene by, because he lacked the ability to capitalize his accomplishments. He was never a politician. Others more versed in the ways of publicity frequently ran away with the credit that was rightfully his.

**LIKE UNDERTAKER**  
Pomerene is tall, lean and dark-skinned; his forehead is high and his fringe of hair black.

He usually wears a black coat, black trousers, a "bottled" white shirt and a "chooker" collar and a narrow black bow tie.

His dress suggests the stage make-up of an undertaker.

Serious-minded, unusually sensitive, he rarely smiles or jokes. Criticism hurts him deeply.

Atlee Pomerene's seriousness and high sense of duty undoubtedly are heritages of his boyhood.

He was raised on a farm in Berlin, Holmes county, O. Atlee and his 10 brothers and sisters each had a certain set of chores and each was held strictly accountable by a stern parent.

Dacosta, an older brother was blind. Atlee not only mastered his own lessons but acted as instructor and tutor for the blind.

In 1892 Atlee married Mary Bookins of Canton.

**CHOSE LAW**  
Dr. Peter Pomerene wanted his boys to become physicians and named most of them after famous doctors. But Atlee, after leaving Princeton, studied law in Cincinnati and then went to Canton to practice.

He served the terms as city solicitor and one as county prosecutor.

In 1910 he was elected lieutenant governor of Ohio. The next year he "bucked" the machine, ran for the Senate against "Boss" Hanley and was elected. He was re-elected six years later, defeating Myron T. Herlick.

In the Senate Pomerene was a member of important committees—banking and currency, foreign relations, interstate commerce and privileges and elections.

As chairman of the latter committee he directed the inquiry that ultimately resulted in discrediting Senator Newberry of Michigan and forcing him from the Senate.

Pomerene turned up the facts of the Ford-Newberry case, other senators made speeches about them. He did the work, they got the credit.

He was one of the leaders in the fight that resulted in enactment of the last child labor law, later declared unconstitutional.

He led the Senate fight for the Adams, telephone law. He worked for the bill creating the Department of Labor and the children's bureau. He supported practically every bill organized labor endorsed.

But he voted for the Esch-Cummings transportation act and was defeated for a third term by the labor vote.

## Here's one beauty about a Hirsh-Wickwire Spring Suit

And there are a hundred other beauties in stock!

When a man tries on a Hirsh-Wickwire suit, he knows he is dressed as authentically as Hoyle himself.

That's one beauty about Hirsh-Wickwire clothes—

They are always correct in balance and breeding—the lapels are absolutely right—the width of the trousers is never 1-32nd of an inch wrong—the draping of the back—the shaping of the collar are exactly as they should be for that particular season.

Men's styles have taken such an entirely different turn this Spring that you need this guidance.

## Cater To Those Who Read In Bed

Expressly purveying to the alluring habit of reading in bed, the first instance in the art of bookmaking in which makers and publishers of books have directly and purposefully appealed to those addicted to that indulgence, comes the new series, called The Bedside Library.

They are little volumes of less than 200 pages each, of a size and form that fit the hand comfortably, printed in good, clear type and having that most desirable feature, a binding, so strong and flexible that the open book can be doubled back on itself and rest fully held in the hand.

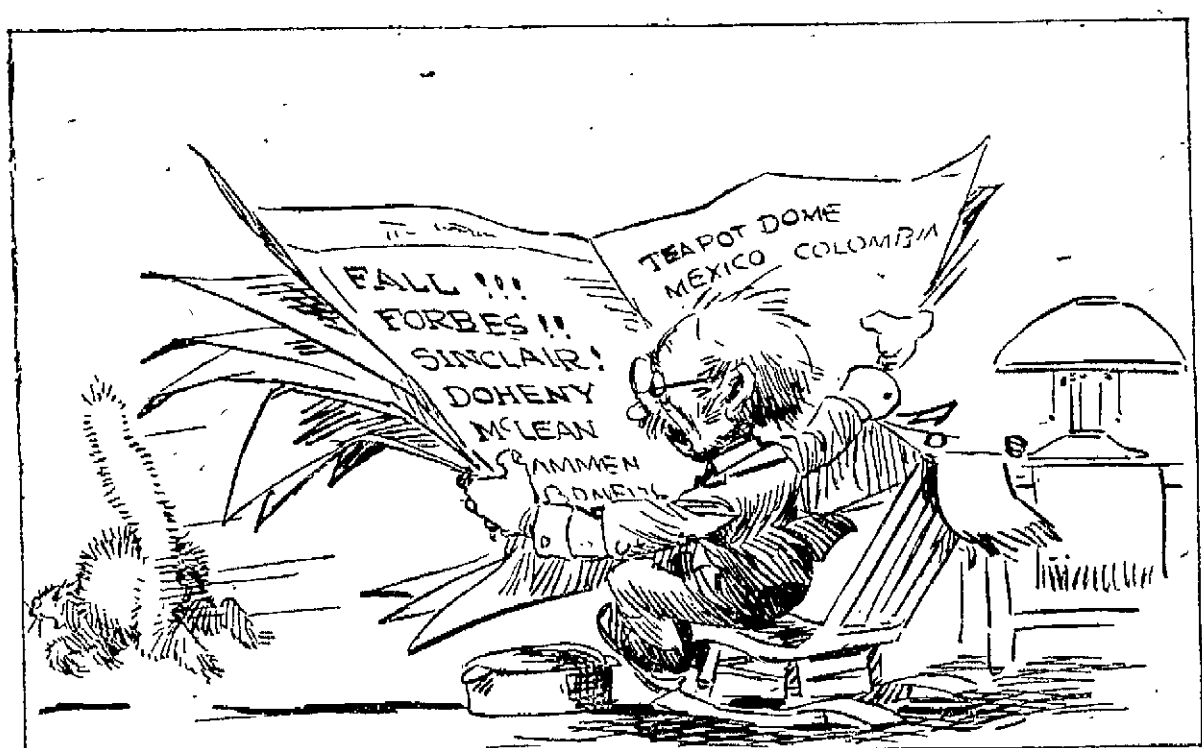

The contents are taken from the great literature of the world and have been chosen especially for their fitness for reading in bed. That is, they are harmonious with and likely to induce and increase a composed spirit and a cheerful, philosophic frame of mind.

Four more of these books have been brought out. Each of them bears on its paper jacket the quotation, from Cranshaw, "Lo, here a little volume but great book." And each has a portrait frontispiece of the man who wrote all or some part of its contents.

One of these volumes contains four of Balzac's short stories and another has eight of Emerson's essays. Under the title, The Plain Man's Prayer Book, the third brings together short prayers from various sources that have voiced the deep need of human souls, while the fourth, called Book of Friendship, contains short excerpts in prose and verse that breathe the spirit of one of the finest and most unselfish of human attributes.

The series, now including 16 volumes, is published in a cloth and leather binding.

## SULPHUR IS BEST TO CLEAR UP UGLY, BROKEN OUT SKIN

Any breaking out or skin irritation on face, neck or body is overcome quickest by applying Menthio-Sulphur, says a noted skin specialist. Because of its germ destroying properties, nothing has ever been found to take the place of this sulphur preparation that instantly brings ease from the itching, burning and irritation. Menthio-Sulphur heals eczema right up, leaving the skin clear and smooth. It seldom fails to relieve the torment or disfigurement. A little jar of Rowles Menthio-Sulphur may be obtained at any drug store. It is used like cold cream.

## Do Heavy Meals Begin to Tell?

Follow Your Meals With Stuart's Dyspepsia Tablets. They Give Prompt Alkaline Effect That Prevents Gasiness and Sour Risings.

Those old-time husky eaters often fall down on a glass of milk or a doughnut, the stomach is heavy, fills with gas, is sour and weakly dyspeptic. Truth is, it had just such attacks always, but they didn't last. Now the stomach needs help and the best thing you can do is to fortify your meals with Stuart's Dyspepsia Tablets. They give the stomach the alkaline effect, they help it to digest food, they give it materials to do this with, they absorb the gas, stop acidity, relieve pressure, and no matter whether it is pork and cabbage, pie and cheese, sausages and buckwheats or steak and onions, your stomach works without distress and you have none of those troubles due to indigestion or dyspepsia. Get a 60-cent box of Stuart's Dyspepsia Tablets at any drug store. Then eat and be merry.

## Present Play At Meeting Of Two Societies

A Japanese play, "Sunlight or Candlelight," was presented at the program that followed the meeting of the Womans association and the Epworth club of the First Congregational church in the church parlors Tuesday. The program was under the direction of Mrs. R. A. Ruxton and Mrs. W. Ray Chalmers. Those who took part in the play were Mrs. Homer Dawson, Mrs. H. L. Post, Mrs. H. H. Cole, Mrs. Stanley Lowe, and Mrs. Henry Grabler. Mrs. Mildred Roeticher played several piano solos and a girl from Lawrence conservatory sang a group of solos. A joint meeting of the two organizations for sewing was held earlier in the afternoon.

## The Pleasure of ENTERTAINING

When the activity and fun of the evening is over—and you get to that interesting time when lunch is to be served—do you reluctantly conduct your guests to an unattractive dining room or do you throw open the doors to a room that arouses the admiration of your guests and gives you that prideful thrill that always comes when good taste is appreciated.

Good taste in the furnishings of your dining room are as important as having a living room that is charming, restful, cheerful and comfortable. Invariably, when you entertain, your dining room is used, unless you serve your guests at card tables or from a tea wagon in the living room. Your dining furniture, therefore, should be chosen with care as to its design and quality. Never before in our history have we had quite so many new and different dining suites to show you.

## EXPECT BIG CROWD AT NEXT BANQUET OF CIVIC SOCIETY

Report of Committee Investigating Closing of Shops Will be Given

Kaukauna—The council chambers in the municipal building probably will not be large enough to hold the crowd which is expected to turn out to hear the report of the railroad shop investigation committee which will be given Thursday evening at the regular meeting of the Association of Commerce. The usual supper will precede this business session. The banquet is for all citizens, whether members of the organization or merely visitors at the meeting.

The report of the shop committee is expected to throw considerable light on the shop question and may give Kaukauna people an idea of the plan of the railroad company in order to get a portion of the local shops closed and dismantled.

The committee which was composed of Mayor C. E. Raught, J. O. Posson, superintendent of the city utility department and W. H. Copp, was in Chicago last Saturday where it held a conference with Chicago Northwestern officials.

## Social Items

## STOP LONDONERS FROM TEARING UP STREETS

By Associated Press  
London—British officials are working up over the frequent tearing up of the streets of London and an effort is to be made to put a stop or at least regulate the practice. Frank Pick, assistant managing director of underground railways, recently declared that 55 different bodies have the statutory right to dig up London streets whenever they feel so disposed.

Borough surveyors complain that the Post Office is the worst offender and frequently chooses newly paved streets for telephone cables. A London traffic bill has been brought to present to the new Parliament as it convenes.

## FIGHT RATS.

They are one of the great enemies of mankind. They carry pestilence and death wherever they go.

They breed so rapidly that a single pair, if left unchecked, will produce with them or their offspring, at the end of three years will be the ancestors of more than 250,000,000 rats.

The destruction caused by these pests amounts to more than the gross earnings of 200,000 men.

Fight this enemy of man scientifically. If you don't know how to do this, send the coupon below to our Washington Information Bureau. You will be sent the free Government publication on rats and mice. There is no charge except two cents in stamps for return postage on the booklet. Be sure to write your name and address clearly.

## KAUKAUNA'S ICE CARNIVAL WILL BE TUESDAY EVENING

Interesting Program is Being Arranged for Outdoor Festival

Kaukauna—The winter ice carnival will take place next Tuesday evening, March 4 on the municipal ice rink on the baseball grounds, according to an announcement made Tuesday by John Copes, chairman of the committee appointed by the Association of Commerce to make arrangements for such an event.

Every effort is being made, Copes said, to make the first annual ice carnival a community success. Much by the band will form part of the entertainment. Valuable prizes are being secured by members of the committee and awards will be made to the best skaters and the fastest skaters in the city.

Attempts are now being made to secure an expert skater from Milwaukee or Chicago to execute stunts on the pond. A portion of the rink also will be roped off for dancing purposes.

Although the Association of Commerce has agreed to underwrite the event and be responsible for expenditures not exceeding \$100, it is hoped enough revenue will be derived to make the carnival self supporting.

## JACOB JACOBS IS DEAD AT HOME IN BUCHANAN

## PARIS CROWD RESENTS LECTURES ON POLITICS

By Associated Press  
Paris—Parisians will accept accounts of the doings in the Chamber of Deputies in their newspapers, for they can read or not as they feel inclined, but they have made it clear they don't want politics thrust upon them.

An enterprising proprietor of a music-hall hired a member of the chamber, Charles Bernard, who keeps a drug store in Montmartre, to give brief and witty talks on what went on behind the scenes among the deputies. He made three appearances, but each time he was howled down. "We did not come here to be bored," the audience shouted.

## SELLS HUSBAND'S HERO MEDALS TO BUY FOOD

London—Honored and idolized during his life; now almost completely forgotten in his death, General Sir John S. Cowans, national hero, is the central figure of another grim tragedy of the war's aftermath.

It's the tragedy of a nation's ingratitude; and its victim is the general's widow, Lady Cowans, who has been forced through dire poverty to take the medals and awards which her husband won and put them up for sale.

Forty years ago John Cowans first joined the British army and when the World War broke out he was made quartermaster general of all the British forces.

When the war was over the general became ill. He had to go into debt to pay his doctors' bills, for the war had played havoc with his \$40,000 estate.

A ray of hope came when awards for heroism were being handed out. Cowans was in line for something. But while others were made nobles and given huge money grants, Cowans was knighted.

He died a few months ago. There

was a large military funeral, kind words and then complete forgetfulness.

The widow struggled along for a while. But her circumstances became worse. She had little left other than the medals which her husband had won. So she put them up for sale for the money they might bring.

The premier offered Lady Cowans an extra pension from the civil lists, amounting to \$50 a year, to be paid quarterly. She immediately refused.

A number of influential men, deeming the nation ungrateful, are trying to make amends. But Lady Cowans says it is too late.

## What's Best for a Bad Stomach

Nine-tenths of all stomach trouble—indigestion, sourness, gas, pain, heartburn, etc., are caused by an excess of acid in the stomach.

Artificial digestants, such as pepsin, are not needed in such cases and may do real harm. They lay aside all digestive aids, and instead neutralize the acid that has upset your stomach with a spoonful or two of tablets of pure Bisurated Magnesia, taken with a little water. This instantly sweetens the stomach and stops the pain and discomfort and your food digests as nature intended. For quick positive relief from Acid Stomach.

# FOREST FIRES IN WISCONSIN COST \$207,000 IN '23

## 28 Counties Suffered Losses Last Year, State Report Says

Reported losses due to forest and marsh fires during 1923 total \$207,538 according to a report by the state conservation commission. The reports represent losses reported by 470 town chairmen out of 623 in northern counties.

The report shows that 385 or 70 per cent of the fires were reported with losses unestimated. An army of 6,490 men fought at 418 or 74 per cent of the fires. A total of 144 fires or 26 per cent were allowed to run with no effort, being made to stop them. Sources of the fires were known in 41 per cent of the cases.

**OCTOBER WORST MONTH**

October and May saw the largest numbers of fires. In October there were 227 fires or 41 per cent of the total number. May saw 141 fires or 25 per cent of the total.

Causes of reported fires are given as follows: 333 fires, 59 per cent; land clearing, 111, 20 per cent; railroads, 43, 7 1/2 per cent; logging, 5, 1 per cent; hunters, fishermen, campers, berry pickers, trappers, motorists, 44, 7 1/2 per cent; road crews, 6, 1 per cent; tractors, 5, 1 per cent; miscellaneous, 17, 2 per cent.

A total of \$8 of the fires caused by settlers attempting to clear land were reported with an estimated acreage burned of 87,681.

**DOUGLAS COUNTY LEADS**

Four barns, four sheds, 14 horses, one portable mill, one camp and a school house were among the property losses reported with a loss of \$71,060.

Douglas county had the largest percentage of loss through forest fires. The conservation commission figured the loss as 8 per cent. Bayfield suffered a 7 per cent loss as did Forest, Price, Burnett counties.

There are a total of 29 counties that suffered losses through forest and marsh fires during the year according to the commission report.

# SEE SLIGHT RISE IN LIVING COST

Cost of living is rising slightly, the first bulletin of the new Wisconsin retail service informs the merchants here. It also contains a survey of business in most of the important lines and gives other data by which to help the store owner keep up to date.

Fifty-one merchants in Appleton now are on the mailing list and are highly pleased with this service. Others may receive the bulletin free by notifying the chamber of commerce. It is conducted cooperatively by the extension division of the University of Wisconsin and the Wisconsin Association of Commercial Secretaries. This is one of the features in the program as outlined at its start recently.

Figures and charts have been prepared using information from the survey of current business issued by the United States department of commerce. These show the trend of costs, prices, expenses and earnings in general business and clothing, department stores, groceries, hardware, lumber and shoes.

Taking the 1913 year as normal and computing it 100 per cent, the bulletin shows that on Jan. 1, 1924, food was at 150 per cent. Shelter on Dec. 1, 1923 was 180 per cent, clothing 174 per cent, fuel and light 176 per cent and all items of living at 153 per cent. The general average was the highest since Jan. 1, 1920.

# ASK APPLETON TO HELP BUY JEFFERSON HOME

Appleton has been asked, through a letter addressed by Thomas Jefferson Memorial Foundation to Mayor Henry Reuter, to assist in a campaign to raise one million dollars with which to purchase Monticello, the Virginia home of Jefferson, and endow it for the future.

Mayor Reuter has referred the correspondence to the chamber of commerce, and the board of directors will discuss local participation. About \$100,000 has been raised and various cities are being called upon to provide the remainder.

# Public Is Responsive To Traffic Club Idea

Few new organizations which are proposed for Appleton and vicinity have struck so responsive a cord as has the safe drivers club which the chamber of commerce is hoping to launch at a mass meeting next Monday at the chamber rooms.

A dozen applications for membership came in voluntarily within a few hours Tuesday morning to be added to the list already received. The letters which are being written to the chamber reveal perhaps better than anything the sentiment for some organization that will help to put motoring on a new basis of road ethics and safety.

Farmers and villagers are backing the movement, because it has been announced that the entire county will be included in the membership of the club. One farmer living on a main traffic highway and another near Black Creek wrote letters Tuesday expressing their desire for membership in the club.

The former said:

"I note there is a movement on foot to organize a safe drivers club in this vicinity and I think it is a move in the right direction. I do not think the law and motorcycle police will ever be sufficient to make driving and walking safe, as one is as unsafe as the other. Our feeling goes first to the innocent child who has as much right and even more right than us grownups to the use of our public highways and streets. I just heard my wife remark how glorious a winter we have experienced. Our roads have been so drifted the speed maniac could not use them. Our children could go to and from school or to town with Old Dobbin without our sitting here expecting a telephone call every minute that some of our little ones are at a hospital, etc."

"Yes, by all means organize a safe drivers club and when you are ready for our dollar let us know."

The Black Creek man wrote:

"Having read in the Appleton paper of your intention of organizing a safe drivers club and believing some such organization could do a great deal to bring about safer driving on our highways, I wish to say I am willing to join any time. Americans trust in God, you can tell by the way they drive."

Data compiled from various other cities that have safe driving clubs have been augmented by a survey made especially for Appleton by the Chamber of Commerce of the United States. The report of the survey embodies the best ideas of other clubs, and will be used in shaping the county club.

# BUY NEW GRADER FOR COUNTRY ROADS

Purchase of a new grader for the county highway department was authorized Monday afternoon by the county-state road and bridge committee which met in the county highway commissioner's office in the courthouse. The committee was instructed to enter into contract with the Bark River Bridge and Culvert company of Bark River, Mich., for the purchase of a 12-foot Adams leaning wheel grader with back slope attached. The price is \$1,730. Bids were allowed and other routine business was transacted. The entire committee, consisting of F. H. Ryan, chairman, A. M. McCrone, Charles Sivert, A. P. Anderson and Milford Bottrell, was present.

# TAX EXPERT HERE TO HELP YOU REPORT YOUR INCOME

R. C. Fairbank, deputy revenue collector, who is in charge of the federal revenue office in the city hall, offers to assist citizens in rendering their United States income tax returns for the year ended Dec. 31, 1923. This service is offered free of charge, and those desiring assistance should call on Mr. Fairbank as early as possible, bringing with them all the data necessary to render a true return of income. Between March 1 and March 15 he will be in the office regularly. The last date for filing returns is March 15. Persons filing after that date will be subject to a heavy penalty.

# This Age of Oil

Speaking editorially, the Chicago Tribune, in its issue of February 3, says:

"Virtually every one in the nation is a user of oil and consumption grows at a rapid pace. We have a problem, therefore, not merely of conservation but of supply, and its solution is vital to the material prosperity and progress of the United States."

This able statement seems to us to justify further comment.

"Virtually every one in the nation is a user of oil"—oil in some form enters into the manufacture of every article of commerce. Without it the commodities you use could not be manufactured and sold for the price you pay now.

"Consumption grows at a rapid pace"—to illuminate this statement it is only necessary to show that in the ten states served by the Standard Oil Company (Indiana) there were, on January 1, 1924, 4,855,739 automotive vehicles registered. This is 807,367 more than were registered on January 1, 1923.

"Conservation"—it is a well-known fact that the Standard Oil Company (Indiana) by means of processes discovered and developed in its own laboratories has contributed more to increasing the yield of gasoline from a given quantity of crude than any other refiner. This increased yield was secured without in any way affecting the quality of the gasoline and without touching that portion of the crude which goes into the manufacture of lubricating oils.

"Vital to the material prosperity and progress of the United States"—comment here seems unnecessary as all must recognize the part played by petroleum in "This Age of Oil."

The Standard Oil Company (Indiana) has achieved its signal success in "This Age of Oil" by practicing the principles of fairness, equity and justice.

The Standard Oil Company (Indiana) is proud of its position as a leader in the petroleum industry—it is proud of its success—it is proud that the service it has rendered has gained the respect, confidence and esteem of the thirty million people of the Middle West.

### LETTER FROM LESLIE PRESCOTT TO LESLIE PRESCOTT.

"Beats," echoed Sydney, "I surely thought, at the time Leslie wore them above her wedding dress and now, that they were real pearls."  
 The waiter looked at me from behind Jack's chair and I was sure that he sardonically dropped one of his eyelids. I felt myself grow red and then pale and was glad that Jack exclaimed "great heavens, Syd, you wouldn't expect my wife wear thousands and thousands of dollars worth of pearls, would you? We are poor people, Syd, sometimes so hard up that I don't know where to get the next dollar to do very much."

"No, old fellow, I had no idea that you could give your wife a gorgeous string of pearls, but it would be very easy to imagine the daughter of Joseph Graves Hamilton wearing jewels worth a king's ransom."

This time I was almost sure that Sydney saw that waiter wink at me but I could do nothing.  
 "They certainly are a wonderful imitation," he said.  
 "I know it," was Jack's complacent reply. "Why, the other evening you ought to have seen the waiters scramble when Leslie broke the string. I am quite sure that one of them must have decided that they were real pearls, for when we counted up there was one missing."

"I grew hot and cold. Suppose Jack should say something about counting the string now. I wish I had not wore them."

To turn the conversation I asked perhaps a bit eagerly, "I am sure

Sydney, that you have come over to the baby's christening. I know when you see him you will be glad to be the godfather to the sweetest bit of human flesh that ever was given to a woman."

At this moment it seemed to me that a peculiar glance passed between Sydney and Jack, and Jack said gruffly: "He is a nice little duffer, but you know somebody left him on our doorstep just at the right moment when Leslie's life hung in the balance, and I believe, in fact I know, that she must love him better than his own mother."

"That's quite true," I interrupted, "for I am sure that under no circumstances could I have given that baby to another if I had borne him."

"You never know what you can do," interrupted Jack curtly.

"Yes, I do," I answered stubbornly. "I do not think much of a mother who would leave her child on a stranger's doorstep."

"Perhaps the mother knew the circumstances, Leslie," said Sydney.

"What circumstances?" into Jack's voice had crept a tone of truculency.

"Why, didn't the papers have the story that Leslie's life was despaired of because she was mourning so over Leslie her child, and wasn't it whispered among her friends that it seemed as though the only course to pursue in bringing her back from death's door was to put a baby in her arms?"

(Copyright, 1924, NEA Service, Inc.)

TOMORROW: Leslie continues her letter—Who is Junior's father?

went to the kitchen to cut the pumpkin and mince pies and pour the cider and serve the ice cream and cake.

But suddenly they came rushing back. "Everything's gone!" they screamed. "There isn't a cookie left! Somebody has been here and run off with all the refreshments. They were right in this cupboard. Oh who could it be? Who can it be?"

"Count noses at once," commanded Daddy Gander. Mother Goose's husband "It can't be anybody here. So it must be somebody who isn't here."

"It's Tuffy the Welshman!" cried Jack's mother. "I invited him but he sent word that he would be busy to night and couldn't come."

"Well," he told part of the truth, anyway," said Daddy Gander sternly. "He's been very busy, it seems. We must go after him at once."

# DOCTOR MAY LOSE JOB ON COMPLAINT OF HEENAN FAMILY

Maltreatment of Loudon Heenan, Former Student Here, is Charged

Circumstances relating to the death of Loudon Heenan, former Lawrence college student, who attempted to commit suicide here two years ago and who died last week in a state institution at Mendota, have resulted in the suspension of Dr. Frank I. Drake, superintendent of the institution.

Charges were lodged against Dr. Drake by David and Hugh Heenan of Janesville, brothers of the young man. In letters addressed to Dr. William F. Lorenz, new member of state board of control, the brothers complain that young Heenan had told them before his death of being thrown into solitary confinement and brutally treated. Scars on the body led them to believe the story, the brothers declared. Dr. Drake denied the story as that of a "mad man."

Dr. M. K. Green, a physician at the psychiatric institute, has been placed in charge of the state hospital for insane, until Drake can be given a hearing, called for next Saturday. He will be asked to show cause why he should not be permanently removed from the position he held.

Coincident with the suspension of Dr. Drake, the board of control made public a letter severely reprimanding the superintendent for his attitude, his failure to take remedial measures even after the patient's serious condition was called to his attention, failure to follow approved methods and his lack of knowledge of conditions at the hospital.

According to the report Saturday, Heenan was left in a dark room with out attention and food against a hot steam pipe, causing severe burns and bruises. It was not charged that his death was caused thereby.

Heenan was saved from drowning in the Fox river here a year ago by Howard Martin, a son of Mr. and Mrs. William Martin, 450 North St. Following a nervous breakdown Heenan attempted suicide by slashing his wrists and then jumping into the river.

**DRAKE WILL QUIT**

Madison—Dr. Frank I. Drake, superintendent of the Wisconsin State Hospital for the Insane at Mendota, who last Saturday was suspended for one week by the state board of control, will resign. He will not appear before the state board of control Saturday to answer to charges of negligence in connection with the strange death of Loudon Heenan, 24, Janesville which occurred at the Mendota institution Feb. 20.

After investigating charges that Heenan was maltreated at the hospital, the board of control suspended Dr. Drake and ordered him to appear at 10:30 a. m., Mar. 1, to show cause why the suspension should not be made permanent.

"I am not ready to answer any questions," Dr. Drake said Tuesday evening, "but I will send my resignation to the board in a day or two."

Dr. Drake has continued to maintain his office at the Mendota institution since the board's action Saturday in reply to the question as to whether he would comply with the board's request to appear Mar. 1, he said.

"What is the use? I have made up my mind to resign. I shall, however, have a statement to make some time this week in connection with the Heenan case."

According to the report Saturday, Heenan was left in a dark room with out attention and food against a hot steam pipe, causing severe burns and bruises. It was not charged that his death was caused thereby.

## USE INDIAN FLUTES IN CONCERT HERE

An interesting feature of the concert that Thurlow Liorance and Edna Woolley Liorance present here on March 7 in Lawrence Memorial chapel assisted by George B. Tack, flutist, is the curious collection of Indian flutes, and each has its own peculiar Indian history and represent most of the tribes well known in the United States. Many have been collected by Mr. Liorance, who has spent much of his life among the American Indians.

Everywhere these artists have been accorded praise and honors, and it is not only among the white audiences that the musicians have made their successes, but the Indians with whom they worked have been very friendly. Edna Woolley Liorance was adopted by the Chippewa tribe in March, 1916, and given the name of Nah Mee, "Little Sister," an indication of the Indian's affectionate appreciation of her work.

Thurlow Liorance not only writes Indian songs but he has recorded a number of songs and ceremonies. In all a collection representing 30 Indian tribes in North America.

## FARMERS HAVE FINISHED ANNUAL HARVEST OF ICE

With the beginning of the late winter there has been a large quantity of ice in rural districts have practically all of their required amount stored in the ice houses. Joseph Gainer and Thomas Hove, Mackville store proprietors, had their ice hauled from Stephenville, but not being able to get enough there, they hauled the remainder from the Fox river. Arthur Jacob, cheesemaker in the town of Center obtained his ice from Schultz's lake.

## Beauty

A Gleamy Mass of Hair

35c "Danderine" does Wonders for Any Girl's Hair

Girls! Try this! When combing and dressing your hair, just moisten your hair brush with a little "Danderine" and brush it through your hair. The effect is startling! You can do your hair up immediately and it will appear twice as thick and heavy—a mass of gleamy hair, sparkling with life and possessing that incomparable softness, freshness and luxuriance.

While beautifying the hair "Danderine" is also toning and stimulating each single hair to grow thick, long and strong. Hair stops falling out and dandruff disappears. Get a bottle of delightful, refreshing "Danderine" at any drug or toilet counter and just see how healthy and youthful your hair becomes.

## WANT GROCER BILLS PAID EVERY 2 WEEKS

The question of semi-monthly payments instead of monthly payments on the part of their patrons was discussed at the meeting of Appleton Grocers association Tuesday evening. No action was taken as it is the plan of the grocers to take matter up with merchants in other lines of business and make the rule general if possible.

The reason for requesting semi-monthly payments is because the grocers are allowed only ten days to get a discount on their bills. Another reason is they pay their employees each week and they claim the present system of monthly collections works out as a hardship upon them.

## SENIORS BEGIN PLANNING FOR COMMENCEMENT DAYS

Lawrence seniors are beginning to look forward to their commencement days and made plans for commencement week at a recent meeting of the class. The senior dance will take place in May, shortly before commencement.

Chairmen of committees have been appointed to take charge of the various preparations. A commencement speaker may be substituted for the class orators.

## RELIEF SNOWPLOW TEARS THRU DRIFTS

Street Department Sees Demonstration of New Plow's Efficiency

A demonstration of the snow plow invented by Henry Relien of Greenville proved of great interest to the members of the street and bridge committee of the common council Tuesday afternoon. The huge plow attached to an Oshkosh Four Wheel Drive truck was used to widen a street near the Hittinger Lumber company and also to shovel a way through packed snow and ice on the Appleton-Menasha road.

It was found that the plow was capable of pushing away snow of a depth of four feet. The width of the roadway that can be made by the plow depends upon the depth and compactness of the snow. Good results were obtained Tuesday at a speed of 20 miles an hour. In the opinion of some of the members, the plow was at an advantage with the force of eight tons back of it. The truck weighed five tons and carried a load of gravel weighing three tons.

It is not known whether the committee will recommend purchase of a plow at this time. It is expected that other types of plows and tractors will be tested.

Mrs. Harry Vandellarschott of Marinette is visiting Appleton relatives.

## Keeping Millions Free From Colds and La Grippe

## W. H. HILL'S LIFE WORK

Colds cause more illness than any other human ailment. Realizing this 50 years ago, W. H. Hill determined to develop a quick-acting scientifically correct cold and la grippe remedy.

Years of research brought success. Mr. Hill discovered a most remarkable formula. He backed it with energy, faith, integrity and a name that meant "satisfaction or money back."

Today more than 4,000,000 families—one-fifth of America's population—use and recommend Hill's Cascara Bromide Quinine.

The formula has never been changed in a quarter century. What Hill's has done for millions, it can do for you. Demand red box bearing Mr. Hill's portrait. All druggists, 30 cents.

## Nose Will Tell Whether Crayon Is Black Or Red

Drawing and art classes at the schools probably will be overcrowded in the future, following the introduction of the newest kind of crayons. When the girl in the seat ahead excludes an abundance of the aroma of rose, take it for granted that some where on her person she is concealing a piece of red chalk. If a boy comes to school with a barber shop fragrance, take a sniff of the violet pencil he carries in his coat pocket. It's a fact. The new kind of crayons smell just like they sound.

The scent of a green pencil is taken from the geranium. Yellow crayons are perfumed with jasmine. Red crayons breathe the fragrance of the rose. And there is a pencil which seems to wilt orange, but the label says locust bloom. The lilac pencil writes blue, the corymbosa writes just the color of the flower from which the perfume is extracted.

Schlafer Brothers are exhibiting a collection of coconuts in their husks as they come from the tree at their store, 1008 College Ave. Very few persons, even some of those who made a business of handling fruit, recognize them with their husks and in order to do away with unwelcome questions some of the coconuts are exhibited with half of the husk removed. The collection was sent to the local grocers by a Chicago firm.

## COUNTY ROADS STILL ARE IMPASSABLE FOR BIG LOADS

Rural roads are still in deplorable condition and are practically impassable for heavy loads. This was learned Monday and Tuesday by John Griesbach who lives near Mackville. On Monday he obtained six teams for a gravel hauling job, but most of the loads tipped over on their way from two miles west of Mackville to Appleton. On Tuesday Mr. Griesbach made another attempt but found it impossible to get through to Appleton.

## What Is Neuritis?

Neuritis is an inflammation of the nerves that produces sharp darting pain very similar to that of rheumatism. In fact, the disease is often mistaken and treated as such, with the result that the sufferer gets no lasting benefit.

Neuritis is usually brought on by colds, injuries, bruises, nervous exhaustion, malarial poisonings or infectious diseases. The pain may be confined to one spot or it may move from place to place. Sometimes it is accompanied by soreness in the muscles, numbness in the hands or feet, lame back, stiff joints, eye strain or severe headaches.

The only way to obtain permanent, lasting relief is to heal the affected nerves—get rid of the inflammation. Eppa Neuritis Tablets are compounded for that very purpose. Harmless, pleasant and effective. A trial package will convince you. Price, \$1.00. Sold in Appleton by Voigt's Drug Store and all other leading druggists. # MR. FARMER

## Are You Planning an Auction For 1924?

*Of course you will plan this carefully, taking into consideration every detail that will help make your auction a thorough success.*

## Advertising of Vital Importance

Farmers as a rule do not realize the tremendous power of advertising as applied to their business. Automobiles and good roads have greatly increased the range of territory, from which the farmer holding an auction sale, can draw his bidders. Old methods are obsolete and in conjunction with personal advertising the farmer should broadcast the news of his sale, listing everything he has to offer, in the columns of the pre-dominant newspaper.

**THE LARGER THE CROWDS THE MORE COMPETITION AND HIGHER PRICES YOU WILL RECEIVE FOR YOUR GOODS**

## Let The Post-Crescent's Auction Department Aid You. Use our Auction Directory.

When you decide to have an auction, write to the "Auction Department" of the Post-Crescent, or better yet Call 543 and give us the date of your auction, who the auctioneer will be and we will publish this information, free of charge, in our auction directory for two weeks previous to the date of the sale.

## Detailed Information Necessary

To merely list the date of your sale, however, is not sufficient. Detailed description of stock, machinery and property is necessary in order to secure the best results. You will see the importance of this when you consider that the average farmer has need of some certain, specific thing when he attends an auction. If he sees merely the general notice of your sale, chances are he may be only luke-warm, but let him once see an article listed that he absolutely needs he certainly will make greater efforts to be present at the auction.

So in order to make your auction sale thoroughly successful, by all means take advantage of the tremendous power of the Post-Crescent. A few dollars spent in judicious advertising may mean the difference between success and failure.

# BELOIT QUINTEET INVADES APPLETON SATURDAY

## Blues' Week End Menu Is Hardest Of Season; Ripon Trip Due Friday

Von Draschek and McAuliffe Are Mainstays of Saturday Invaders; Game Will Be Played at 3 O'clock.

Lawrence faces the hardest weekend of the season this week when the Blues invade Ripon Friday and Beloit Saturday. These two games and a final one with Marquette here will close the schedule. Ripon has a good team this year and will give the Lawrentians a hard battle on their own court the evening before the Beloit game, but as Beloit is playing Carroll at Waukesha the same night, it will have no advantage over the Blues in this respect.

Beloit has not lost a game for three years. Every team of the Midwest and Little Five conference has been beaten by it. It is the opinion of coaches and cage experts that Beloit has the best team ever seen in collegiate circles of the middle west. However, Coach A. C. Denney is not appalled at the formidable record, but is working his men with extra practice to give the Saturday invaders a taste of their own medicine. Von Draschek is the mainstay of the Beloit team. He did wonderful work with the football squad, and is going even better in his position as forward on the basketball quintet. He holds the high mark for individual scoring in both conferences, and will be the chief stumbling block between Lawrence and a victory. McAuliffe, another grid star known for his speed and grit, takes his place as center, and will give Ashman the hardest battle of his career. Laffin, Von Draschek's running mate at forward, is worth of the company he keeps on the court.

**AFTERNOON GAME**  
Unfortunately, the Beloit contest must be played at 3 o'clock Saturday afternoon, although it is without doubt the most important on the Lawrence schedule. The armory is leased by an amusement company which has its best roller skating crowd on Saturday evening. This firm has refused to give up the court for the evening despite the importance of the game, and consequently the college athletic authorities were forced to make arrangements for an afternoon contest.

Bleachers from the Lawrence athletic field will be met at the armory to accompany the host of fans expected to attend and as the boilers have been repaired, the hall will be well heated.

## SPORT VIEWS AND NEWS

Harry Sylvester, who holds the state lightweight title in Appleton, is anxious to get out from under. Sylvester is looking for a purchaser of the club. The veteran is still willing to play but wants to get rid of all the dollar and cents worries connected with the management.

Dame Runtor has it that the fans in Sheboygan are much worried over the state league situation and that there is some talk of trying to revive the old Lake Shore loop if the McGillican circuit fails to continue. The Chalmersville village had one experience of non-league ball. That was enough.

Marty Below, Oshkosh, who captained the Badger varsity gridiron squad last fall, is not going to have anything to do with professional football. Below has left school to accept a position with a Chicago concern and he claims that his days of chasing the pigskin are over.

Stormy Kromer laid the foundation for his home products baseball loop as a meeting held Sunday in the Municipal building in Kaukauna. There was a fairly good gathering at the conference and plenty of enthusiasm was on tap. Kromer hopes to have at least eight clubs in his circuit.

The illness of Jack Zwick was a bad blow to the card of fights in Sheboygan as the main attraction. Due to the illness of the fighter, the other fights of the program, however, gave the spectators a good run for their money. A capacity crowd jammed the hall for the pugilistic bill.

Basketball squads from the Kimberly-Clark mills will compete in a basketball tournament at Kimberly over the week end. Squads from Kimberly, Wis., Neenah, Wis., Niagara, Wis., and Niagara Falls, N. Y., will compete. The team from the east is said to be an all star aggregation of cagers.

A trio of important Valley conference games are scheduled for Friday night. Fond du Lac will invade Appleton; Manitowish is booked for appearance in Sheboygan; while the ancient rivals, East and West Green Bay are slated to fight it out for the second time this season.

West Green Bay threw quite a scare into Appleton the other night. The Baytite kept right on the heels of the Wilson men up until the last five minutes of play. Then West's defense seemed to crack under the strain and the league leaders counted five baskets in rapid succession.

Close to 2,000 spectators saw the Fond du Lac-Oshkosh game last Friday night. It was the biggest turn out for a season's tilt in this part of the state. A rally early in the fourth quarter put Oshkosh on the exhibition well in hand at all stages.

## Quits

Marty Below, Oshkosh, captain of the University of Wisconsin football team and almost unanimous choice for place on All-American and All-Conference teams, finished his academic work last semester and after leaving school, declared his intention of giving up football for good. He refused a very flattering offer from one of the greatest professional teams in the country, but said he would assist in training future players for his alma mater.

## RUSSELL IS TIRED OF PLAYING ROLE AS RELIEF HURLER

American League Pitcher Wants Place on Regular Twirling Staff

Allan Russell, who was the "iron-man" relief pitcher of the American League last season, isn't satisfied with his lot. He has tired of the role of rescuer of faltering pitchers.

"If the new manager of the Washington club will start me as a regular I am positive that I will win at least 15 games for him. With the breaks it wouldn't surprise me if I hit the 20 mark in games won."

"I am certain that my arm has recovered sufficiently to entitle me to a chance to start. Last year the feeling that I could only go at top speed for from one to five innings caused me to be used almost entirely as a relief pitcher."

"Frankly I lacked confidence in my ability to go the route last year. However, the many tough spots into which I was dropped last season, and the fact that I delivered in a great majority of games as a pinch pitcher makes me feel that my arm is right again. At least I think I am entitled to the chance on past performance."

Four years ago Russell was one of the most promising pitchers in the American League. A physical breakdown kept him out of the game a greater part of one year. Now he feels that he is back.

Russell has the most deceptive spitball in the American League, but inability to control it minimizes its effectiveness.

## NEENAH SOLDIERS BEAT CO. D, 13 TO 7

Neenah Militiamen Monday humbled the Co. D quintet of Appleton, 13 to 7, in a fast game on the Armory G court here. The Neenah team included several stars of the Twin City Boosters, and was beyond the class of the local Doughboys. They took the lead, 11 to 1 in the first half, but in the second the Co. D players bucked up and held them to but one field goal, while they were making three.

Stillman scored all the points for the Appleton team. Schultz starred on defense.

Herman Kuehl of the Neenah five caged the ball three times. Oscar Kuehl once, as did Hayes and Smith. H. Kuehl also copped a free-throw.

The Co. D quintet will clash with St. Paul Lutheran church team Thursday evening in Armory G. As both teams are playing on a strictly amateur basis, no admission is charged, and the public is invited to attend.

## Short Stature Of Sarazen Is Aid To Golfing

Is height a handicap in golf? Gene Sarazen, short and stocky defeated Arthur Havers, long and angular, in a special 72-hole match on the coast.

Sarazen had almost perfect control of his shots from tee to green. His compact style seemed to reduce the possibilities of incorrect hitting to a minimum.

Havers, on the other hand, his timing was far from perfect. His longer arms and body seemed to place an added burden on his control.

At an early stage in the match Sarazen's play and he was rather decisively beaten by the young Italian.

## Appleton High Quint Meets Fond du Lac In Fight For F.R.V. Lead

Orange Must Win One of Two Games Left on Schedule in Order to Make Good its Hold on Championship.

Appleton High school has a tenacious grip on the Valley conference championship, but before it can lay definite claim to that place must defeat one of the two teams still on its schedule. Fond du Lac is due to play here Friday evening, and Oshkosh meets Appleton and Oshkosh are two of the most dangerous teams in the conference, and will fight hard to bumble the Orange once more before the season ends.

Fond du Lac held first place in the loop for one week after it had defeated Appleton and ousted that team from the title post. A defeat by Manitowish and a simultaneous victory for the local youngsters crowded the Fondy quit out of the attic, and thereafter Appleton resumed its former position which it has held successfully ever since.

Coach David Wilson is taking no chances on leaving anything undone which may help his team to win through a stiff half-hour of drill, and then engaged them in a scrimmage with the second string. The Orange-men have recovered from the slump which lost them their last battle with Fond du Lac and according to present indications should more than even their score with the invaders.

## Ruth's Dogs Bark

HOT SPRINGS, Ark.—Babe Ruth has had to stop training on account of aching feet.—News Item.

WASHINGTON, D. C.—President Coolidge was profoundly shocked at news from the south that Babe Ruth's expansive promises had gone democratic and prompted an "immediate" and "unshrinkable" investigation.

Sudbury, Mass.—This quaint little township was plunged into stygian gloom today when it was learned that Ruth's stylish-stout dogs have cracked under the strain. A mayor's proclamation was read to the assembled peasantry in public square and hips were hung at half past.

London.—The Price of Wales was in no position to comment officially today on the revolt of Ruth's bloodhounds when approached by your correspondent. The young gent at the moment was being dragged from under a polo horse.

Miami, Fla.—On hearing that the Stambino's unclipped griffons had folded up under him, Gene Sarazen registered a triple distilled look of surprise, and commented as follows: "What do you think I got Baton Rouge on the radio last night?"

New York—Wall Street tottered on the thin outer edge of a man's size panic when the news broke that

Ruth's wire-haired terriers had gone on strike. Why on earth didn't he clobber them in 'Luz' the hysterical Morgans asked.

Hollywood, Cal.—The motion picture industry, as it is jokingly called, received the news of the Ruthian holocaust with moderate composure. "All I ask is that the public hear my story," commented Mable.

Paris.—The franc tumbled to new low levels following the collapse of the Bambino's spacious Alrodales. Polmeare pleads for continued optimism. "Maybe it's just a corn," he suggests, hopefully.

Stonerville, Kas.—Of course the castrators will have a serious effect on the Peruvian lotto situation, but I've always maintained that Ruth had bad footwork.—Jack Dempsey.

New Orleans—"I am not alarmed. Ruth can roll up to the plate in a wheelchair and still be able to get a longer ball on a hunt than anybody else on a home run."—Mr. Higgins (himself).

Pasadena, Calif.—"You say Ruth's violin cases have become unstrung? Great grief! What's the poor girl to do now?"—Mr. Valentino (in the flesh).

## THREE MAJOR CLUBS NEVER TOOK PENNANT

Washington and St. Louis in the American League, and St. Louis in the National, have never captured a pennant. Each has finished in the first division several times but thus far none has been able to hurdle the final barrier. In 1922 the Browns came within one game of making the grade, losing out to the Yankees.

## COMBINED LOCKS KEGLERS FINISH FIRST IN LEAGUE

H. Strutz and Hammond Cop Prizes in Y. M. C. A. Bowling Loop

Keglers of the Y. M. C. A. Industrial Bowling league last week ended their schedule with the Combined Locks Paper Co. team on top, and the Appleton Wire Works tied for second place with the Kimberly-Clark team. The season was a very successful one. It ran over a period of more than three months during the winter, and furnished recreation for more than 60 men.

Last season the Kimberly-Clark five copped first place, but Combined Locks rose to the top this year by taking 21 out of 30 games. Members of the leading quintet will be presented with a set of handsome medals by the Y. M. C. A.

Team standings follow:

	Y. M. C. A.	Pct.
Combined Locks	21	9 .700
Appleton Wire Works	18	12 .600
Kimberly-Clark	18	12 .600
Interlake Paper Co.	15	15 .500
Y. M. C. A.	12	18 .400
Thimpany Paper Co.	6	24 .200

Only four forfeits for non-appearance were made during the entire season. The interest displayed this year leads to the hope of even a better and larger league next year.

Hammond of the Combined Locks team won first place in the average column with 172. The rest stated that men compelling to this place must take part in two thirds of all games scheduled for his team. Hammond, received as prize an Eveready flashlight donated by the Valley Sport Goods and Appliances Co.

H. Strutz, Appleton Wire Works, led with a high individual score of 249, for which he received a pair of bowling shoes given by the Appleton Sport shop.

The highest averages of the league are as follows:

Ludwig, Combined Locks	173
Mathis, Kimberly-Clark	161
Rahn, Kimberly-Clark	160
G. Coon, Thimpany	158
Wilmont, Combined Locks	157
Aunger, Combined Locks	157

## K.-C. MILLS PLAN CAGE TOURNAMENT FRIDAY, SATURDAY

Teams from Niagara Falls, Niagara, Kimberly and Neenah Will Meet

Kimberly-Clark Athletic club of Kimberly will stage a four-game basketball tournament on Friday and Saturday. Kimberly-Clark teams from Niagara Falls, N. Y., Niagara, Neenah, and Kimberly will fight for the championship of the Kimberly-Clark Co.

Each one of these teams has demonstrated its superiority in its own locality by defeating every industrial team in the neighborhood, and rivalry between the four is running high.

The Kimberly team is made up of men who have been working and playing the game together for four or five years.

This year the expert coaching of Louis Loose, Appleton, has raised its standard to such a height that Kimberly fans are backing it to the limit in the tournament.

The Niagara, Wis. quintet is known all over the state. It is coached by Harry Hertz, who has whipped together an aggregation which will worry any one of the other three.

Niagara Falls comes here with a record of having beaten some of the best industrial teams of Niagara and Buffalo. The team now is perched on the top rung of the industrial ladder in its own district.

Neenah, with such men as Chapelle, Kuehl, Madven and Anderson on its lineup looks dangerous to the hopes of its rivals.

Neenah Five of Appleton rolled 2,281 for the highest score captured by the three ladies teams now bowling in the Janesville meet. The Checker Girls are second with 2,278, while the Arcades copped 1,615.

The 2,281 aggregate rolled by the Hoyers puts them in fourth place among the team events, and the Checker Girls also have a good chance to cop a goodly portion of the money. The Dockers of Milwaukee had first place in the team events with 2,345.

## POLICE TAKE HAND AS LEWIS DEFEATS POLISH VETERAN

Zbysko Claims Strangler Used Closed Fist to Win Deciding Fall.

Chicago — Ed "Strangler" Lewis, worlds champion heavyweight wrestler, and referee Pat McGill were escorted from the ring by policemen Tuesday night after McGill awarded the deciding fall to Lewis in a match with Stanislaus Zbysko, veteran Pole, who was struck and knocked unconscious by Lewis.

Admirers of Zbysko who took the second fall after Lewis had taken the first, expressed disapproval and surged about the ring. After the bout Lewis and Zbysko shook hands, but later followers of the Pole credited him with the statement that Lewis struck him on the point of the jaw with his closed fist. Referee McGill explained that the Pole had been healed with Lewis' open hand that such tactics are permissible under the rules.

Lewis won the first fall in 24:25 with a headlock. Zbysko employing arm locks continually, took the second in 7:30 with a short arm scissor.

In the third and deciding fall, Zbysko brought Lewis to the mat numerous times with the arm lock, but the champion each time managed to break the holds. After the last time, Lewis reached up with his right hand and the Pole's head struck the canvas with a thud. The champion quickly applied a front headlock and was awarded the fall and the match by McGill.

The bout was the sixth meeting between the pair. Lewis is credited with four victories and Zbysko with two.

## Illness Holds Lawrence Star From Contest

Eddie Kotel, star forward of the Lawrence basketball team is on the way to recovery from an illness Tuesday afternoon threatened to develop into diphtheria. Kotel developed a slight cold several days ago and when he neglected to take proper precautions, the mild weather fooled him and laid him flat on his back.

# APPLETON PROUD TO BE HOME OF LAWRENCE SINGERS

Club and Soloists Reach New  
Height in Concert in Col-  
lege Chapel

Lawrence College glee club added to the usual interest in the annual home concert by giving a delightful program for the 1924 event on Tuesday evening at Lawrence Memorial Chapel. Once more the club showed the splendid results of the training which Carl J. Waterman, dean of Lawrence Conservatory of Music has given Lawrence glee clubs for several years. In each type of song throughout the varied program, the club seemed to excel.

The substitution of soloists, including one girl, Miss Lucille Muesel, for the usual quartet numbers added variety to the presentation. Miss Muesel proved herself to be a rising artist in her interpretation of the aria "Ab fors a Lui" from La Traviata by Verdi. She showed herself to be a talented college girl in the unsophisticated and charming way in which she sang the group of songs near the close of the program. Miss Muesel has always been a favorite with Appleton audiences whether she appeared as a soloist, pianist or amateur actress and Tuesday evening's number enhanced her popularity.

## SPLENDID SOLOISTS

Those who have watched the progress which George Mechelson, the baritone soloist, has made since he came to Lawrence, making his splendid voice one which is under control and ready for the slightest shade of change in mood were pleased with his solo numbers for the glee club concert. Mr. Mechelson sang but two numbers and one encore, "Jean" because he was greatly handicapped by a severe cold.

This is the second season that Harry Blum, violinist has been a soloist with the club. He played two interesting numbers, "Serenade du Tsigane" and "From the Canoebrake." While Bernard Behnken plays his euphonium very well and gave a splendid interpretation of "Sourire Du Poitou," the audience wished that it might see more of his clown stunts which were indicated in one of the club encore numbers. Mr. Behnken gave an encore to his solo "Ave Maria."

## AUDIENCE MARVELLED

The way in which the club went from the sterner numbers such as "Border Ballad" with which the program began to the lighter numbers and then to the folk songs with perfect ease was one of the things at which the audience marvelled. If the people who were there on Tuesday evening had never felt a civic pride in the glee club they must have found themselves proud of the fact that an institution in their own city could produce such splendid chorus work.

Two numbers were omitted from the program because of its seeming length and the audience felt cheated at not hearing everything that the club has in its repertoire. Some of the outstanding numbers were "Goin' Home," arranged to the large of the New World symphony by Dvovak, "Border Ballad," by Maunders, "Chorus of Pilgrims" by Wagner and "The Hundred Pipers" by Scott. The folk songs, the club again sang the "Song of the Volga Boatman," a Russian folk song.

## SHERWOOD EDDY ILL; CAN'T LECTURE HERE

Sherwood Eddy, the noted lecturer and religious worker who was to have spoken here on Wednesday and Thursday, has canceled his visit, due to illness. He was scheduled here by the Lawrence college Y W C A and Y. M. C. A. In his communication Dr. Eddy said he would lecture here as soon as conditions permitted him.

## DEMURRER CAUSES DELAY IN \$1,000 DAMAGE SUIT

Trial of the \$1,000 damage suit of John Morrison of Menasha vs. Vincent Forster of Appleton has been postponed because of a fraud complaint by the plaintiff and a demurrer filed by the defendant's attorney. Date of the trial cannot be set until the court has made a decision upon the demurrer. Morrison is suing as a result of an automobile accident in which he was injured last year. A Dean taxicab collided at Second-ave and Lemnawast with the Forster automobile. Morrison was a passenger of the taxicab. W. E. Dren has been made a co-defendant in the case.

## JANSEN'S SECOND TRIAL DUE TODAY, IS POSTPONED

The jury trial of V. R. Jansen of Little Chute could not take place on Wednesday as scheduled. Jansen is charged with stealing approximately \$200 from the Recreation hall during Christmas week. At his recent trial in municipal court the jury could not agree upon a verdict, and a new trial was ordered by Judge A. M. Spencer. Attorneys Rooney and Grogan represented the defendant, while John A. Lonardoff, district attorney, was in charge of the prosecution. A date for Jansen's second trial is still to be set.

## CITY WILL OBSERVE CANNED GOODS WEEK

National Canned Foods week begins March 1 and will be observed in Appleton by large and interesting displays of canned foods. Although a great percentage of the food of the modern household comes to the home in canned form, few housewives or their families stop to consider the enormous amount of research and experimentation that has gone into the food industry.

It is no longer the surplus of vegetables and fruit that is canned to keep it from being wasted. Great care is being taken to produce varieties of each vegetable that will be especially suited for canning. For these, it is necessary to know what soil will give the biggest yield and under what climatic conditions.

The department of agriculture and the experiment stations throughout the country have done a great deal in the development of varieties of tomatoes, corn, peas, asparagus, peaches, blueberries and other staple products for canning.

## POSSES RECAPTURE ESCAPED MEXICANS

Houston, Tex.—Six of the 27 Mexican convicts who escaped Tuesday night from the state prison farm at Blue Ridge, 35 miles from here, are in custody Wednesday morning and posses of state, city and county officers are searching for the others. Four are under arrest here and two are in custody at Bluffs Blidge. Of the 27 who escaped two were serving life terms. One man had escaped twice before.

## SEMINARY DRIVE COMMITTEE MEETS

Data for the Appleton campaign to help raise a million dollar fund for Chicago Theological seminary will be set by the local committee at a supper at 6:30 Wednesday evening at the Y. M. C. A. Plans for raising the Appleton quota also will be outlined. There will be no city wide canvass but a number of people will be asked to contribute largely those belonging to the First Congregational church. Charles C. Nelson is chairman of the Appleton committee. The other members are R. E. Carnes, F. F. Wetzel, Roy Marston, J. L. Heflinger, G. E. Buchanan, George J. Packard, W. O. Thode, Dr. G. E. Johnson and Dr. Charles Reineck. T. E. Orison, Winnebago district chairman, and Dr. H. E. Peabody and Dr. John W. Watson also will be present. The Rev. E. A. Munger of Madison, state representative of the seminary, is expected to address the committee.

Visit Tuttle Press  
Members of the Rotary club visited the Tuttle Press Co. Tuesday and were shown through the plant by E. N. Smith, vice president. The officers and the articles were all explained. The visit followed the regular noon luncheon in Conway hotel.

Stereopticon Lecture  
A stereopticon lecture by Dr. John Denvers of Lawrence college showing the life of the people of Malaysia will be given at 7 o'clock Thursday night in Conway library. This is open to the public.

Mission Society Meets  
The Women's Missionary society of Trinity English Evangelical Lutheran church will meet at 3 o'clock Thursday afternoon at the home of Mrs. F. L. Schreckengost, 1690 Front st.

About 25 friends and neighbors surprised John Bohm Tuesday evening at his home in Grand Chute a home of his birthday anniversary. Music dancing and card playing furnished entertainment for the evening.

## STYLE WEEK SET FOR MARCH 17 BY LOCAL MERCHANTS

Directory Solicitation Methods  
Are Condemned by Re-  
tail Group

Spring style week will be held from March 17 to 22 by Appleton merchants, according to a decision reached by the retail trades division of the chamber of commerce at a meeting Wednesday morning. Merchants also decided to exercise more vigilance with respect to advertising schemes because of the method of solicitation practiced here within the last week by directory salesmen.

The style week arrangements were turned over to Appleton Advertising club and suggestions were given for the kind of opening events preferred. Feature windows will be planned by various stores for the week. There will be a grand opening on March 17 when the lights will be turned on the spring merchandise displays for the first time. A band probably will be engaged for street concerts for the benefit of those who are down town.

A report was made at the meeting showing that Harvey Ames, supposedly of West Allis, had been refused endorsement of a telephone directory for Stockbridge and Sherwood Telephone company of Stockbridge, for which he wished to solicit advertising. He conducted his canvass, nevertheless, and sold space because of having portions of the "dummy" marked for Pettibone Peabody company, Green Dry Goods company and Burton-Dawson company. These companies declared that they had refused to buy any space and that the solicit or had no right to indicate they had in his advertising layouts.

Merchants also were informed that a church directory canvass is about to be made by outside persons and that patronage should be refused, since the local church gate practically nothing out of the venture, except the directories.

## TAKE SALTS IF STOMACH ISN'T ACTING RIGHT

Says Indigestion Results From An  
Excess of Hydrochloric  
Acid

Undigested food delayed in the stomach decays, or rather ferments, the same as food left in the open air, says a noted authority. It also tells us that indigestion is caused by Hyperacidity meaning there is an excess of hydrochloric acid in the stomach which prevents complete digestion and starts food fermentation. Thus everything eaten sours in the stomach much like garbage sours in a can, forming acid fluids and gases which inflame the stomach like a toy balloon. Then we feel a heavy lumpy mass in the chest, we belch up gas, we eructate sour food or have heartburn, flatulence, waterbrash or nausea.

He tells us to lay aside all digestive aids and instead get from any pharmacy four ounces of Jad Salts and take a tablespoonful in a glass of water before breakfast and drink it while it is effervescent, and furthermore to continue this for a week. While relief often follows the first dose, it is important to help neutralize the acidity, remove the gas-making mass, start the liver, stimulate the kidneys and thus promote a free flow of pure digestive juices.

Jad Salts is inexpensive, and is made from the acid of grapes and lemon juice, combined with lithia and sodium phosphate. This harmless salt is used for many stomach disorders with excellent results.

## OLDTIMERS SHIVER AS THEY REMEMBER FEB. 27 OF 1862

Not a waterwheel in Appleton was turning sixty-two years ago Wednesday, according to Joseph Koffend, Sr. This was due to an-chor ice which clogged the gates. The temperature was 28 degrees below zero. It was the lowest registration of the winter.

W. E. Brady of Baltimore, Md., spent last week at the home of W. H. Ziegler in the town of Maine. Miss Marcelle Hilbert, a nurse at Victory Memorial hospital at Waukegan, is visiting at the home of Mrs. T. F. Walsh.

Miss Mildred Hilbert who visited in Appleton during the weekend has returned to Waukegan where she is engaged in teaching school.

Miss Frances Smith left Wednesday for Chicago where she will spend a few days.
